

## **Footpath Officer Report for Linton Parish Council**

**April 2018**

I am pleased to report that our footpaths are in good shape, the majority of them walked regularly by dog walkers and walking groups, including our own Linton Walkers.

We have experienced a little mud this winter.

There have been no issues or concerns reported to me during the past year.

If you have any concerns I can be contacted via the Village website.

That concludes my report.

PC McGillivray    Footpath Officer.

## **Tree Warden Report for Linton Parish Council**

**April 2018**

This past year as the year before has been very quiet with no enquiries from the public.

There has been one incident which was the falling of a very large branch of an Oak tree close to footpath on the Linton Park Estate. As this was on Estate land no further action was required from me.

The cleared scrub behind the village hall has been tidied and levelled ready for seeding.

Each year I bring tree disease to your attention, a particular problem in this area is Ash Dieback (Chalara) if you have any concerns I can be contacted via the Village website.

That concludes my report.

Peter McGillivray    Tree Warden.
