

## **Village Hall Chairman's Report**

**I would like to thank all the Trustees, in all of their positions, for continuing their offices and supporting me.**

**We are well supported by our hirers and their income is spent on maintaining the Hall to a high standard, built in 1887, the maintenance required is very high.**

**Over the past year Baby changing facilities have been installed in the Ladies toilets; a professional cleaning company has been engaged to keep the Hall as clean as possible ; the garden has been levelled and grass seed planted, giving an open view of the Weald our thanks to Patrick Gerrish of contractors Highleaf. This will be an ongoing project, making the garden a great asset for the Hall. The construction of the North Store has made it much easier for the Hirers to access the tables and chairs.**

**The flower boxes in front of the Hall are looking great, thanks to a Trustee.**

**There has been an increase in children's parties.**

**Planned future projects are: Re-decorate the parts of the Hall in need of tidying up, the side garden and Hall name board and contact numbers.**

**One must remember that the Hall would not exist without the Trustee's, all who are unpaid volunteers and give their free time for the benefit of the Village.**
